

Solidar OFFICE

Perfectly Optimized for Mid-Range Vision

The Solidar Office is an optimized reading lens with the ability to have clear vision in the mid-distance zone. The useable distance can be controlled by the dynamic power of the office lens. The more dynamic power the lens has, the more it can also be used for distance. We offer several Office progressives that are specifically designed for computer and office use.

Prescribed Add Power	Design Name			
	Office .75	Office 1.25	Office 1.75	Office 2.25
0.75	Infinity			
1.00	Office			
1.25	Workspace	Infinity		
1.50	Desk	Office		
1.75	Computer	Workspace	Infinity	
2.00	Reading	Desk	Office	
2.25		Computer	Workspace	Infinity
2.50		Reading	Desk	Office
2.75			Computer	Workspace
3.00			Reading	Desk
3.25				Computer
3.50				Reading

How to use this chart, order, and verify lenses:

- Find prescribed add power in first column and select desired working area in the row to the right. Order the design name in the column above your choice.
 - Infinity -----> Distance focus standard PAL
 - Office -----> Distance focus of 13 feet
 - Workspace -----> Distance focus of 6.5 feet
 - Desk -----> Distance focus of 4.5 feet
 - Computer -----> Distance focus of 3.3 feet
 - Reading -----> Distance focus of 2.6 feet

2 Rx should be given to the lab as prescribed for a normal PAL. DO NOT TRANSPOSE RX BEFORE SENDING TO THE LAB.
