

Solidar DSV

Individualized Lenses for Everyone

Single vision lenses can now be produced as Individualized premium products. Using multiple optimization algorithms, single vision lenses can be optimized in any prescription. Single vision wearers no longer need to compromise or be boxed-in to limited vision. Choose Solidar DSV for a clear, wide field of view.

Ideal for near or far sighted patients, first time wearers, children, reading or distance lenses as well as sport lenses.

Great for reading books or small font sizes on today's digital devices, looking at objects that are far away and for sport activities.

- Highest visual performance
- Clear vision in all directions
- Ideal for sports frames
- Clarity in the peripheral zone
